Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-36 are presented for examination.
2. The rejection to claims 1-36 under rejected under 35 U.S.C. 102(b) as being anticipated by **Kuno** (U.S. Pat. No. **5,802,494**) is maintained.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-36 are rejected under 35 U.S.C. 102(b) as being anticipated by **Kuno** (U.S. Pat. No. **5,802,494**).

As per claims 1-36, Kuno teaches a patient monitoring system that includes a patient-data-acquiring section and a monitor section. The patient data-acquiring section includes a data-inputting device for inputting at least one of two data items, the first data item representing a patient image, and the second data item representing the physical conditions of the patient, a detecting circuit for detecting

Art Unit: 3661

whether or not it is necessary to examine the patient's image on the basis of the data items input by the data-inputting device, a message-sending device for sending a message to the patient asking whether or not the patient agrees to be examined when the detecting circuit detects that it is necessary to examine the subject's image, an agreement-recognizing circuit for recognizing the patients's agreement to being examined, and a data-transmitting circuit for transmitting the first data item to a monitor room when the agreement-recognizing means recognizes the patient's agreement. The monitor section includes a display for displaying the patients's image represented by the first data item transmitted by the data-transmitting circuit (see entire document).

Response to Arguments

As to the reference not teaching “ two remote stations” . Figures 4-5 has been shown to teach two remote stations, the console of figure 5 is one of the two station and the robot is the other one, which contains an image display at its trunk being taking as another station. With respect to a first remote station and a second remote station, one skill in the art would decide which one the two stations mentioned above would be called a first or a second station.

5. Applicant's arguments filed 12/05/2005 have been fully considered but they are not persuasive.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
